

The Style You Like for The Home You Love

When arriving home, **Laforge** wants you to be greeted by a door that is not only safe and strong, a door that operates as it should. Why settle for anything less? We simply call it quality of life.

At **Laforge Doors Ltd.**, we are committed to giving you peace of mind.

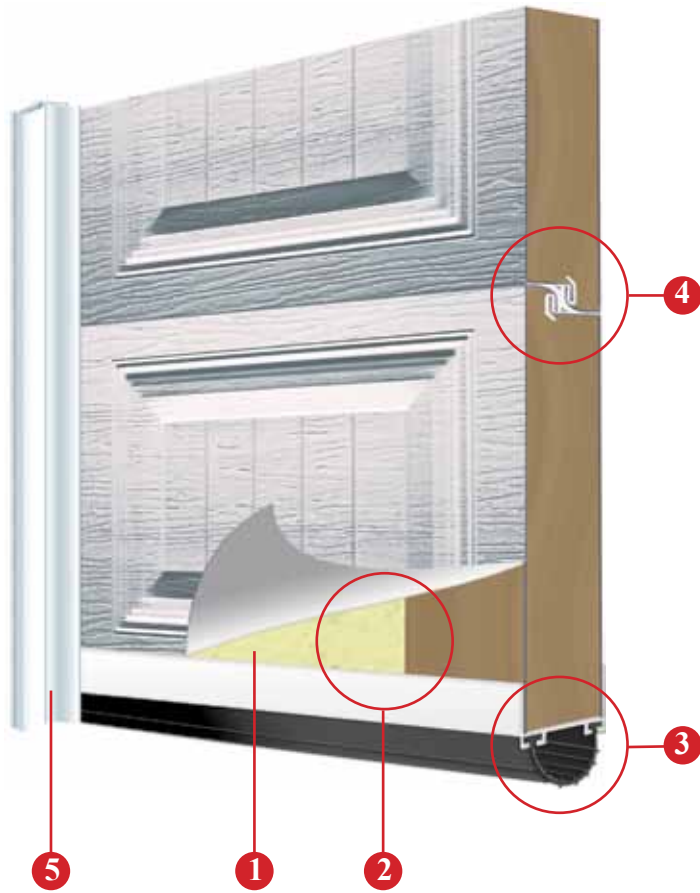

1 Polyurethane injected (CFC free) insulation ensures the panel's strength and provides an R-16 thermal value.

2 Wood end pieces ensure solidity and eliminate conduction of cold.

3 Bottom rail with an EPDM U-shaped flexible rubber provides a contoured seal between the door and the floor for maximum protection. The aluminum bottom rail is supplied with the Supreme package. The PVC bottom rail is supplied with the Deluxe and Standard packages, however you can upgrade to the aluminum bottom.

4 Designed and manufactured for harsh weather, our 4 point seal system creates a continuous barrier for each panel section.

5 Available in 6 different colors, the PVC side seals with double lip construction prevent air, snow and dust infiltration. Concealed fastener system for added beauty.

1 3/4" **aluminum**; polyurethane injected insulation with an R-16 value; choice of 5 exotic colors; 2" teflon rollers; aluminum bottom rail; flexible top seal; PVC end caps; 25,000 cycles torsion spring.

The **Supreme** package lives up to its name. It has the best quality hardware that ensures supreme performance. This first-rate door features 22 gauge aluminum skin both inside and out. It will bring an additional touch of class to your home, while providing everlasting quality, value and warmth.

Deluxe

1 3/4" Aluminum

1 3/4" **aluminum**; polyurethane injected insulation with an R-16 value; choice of 5 exotic colors; 2" nylon rollers; PVC bottom rail; 10,000 cycles torsion spring.

The **Deluxe** package is a premium choice for any home. This polyurethane injected door offers the perfect balance between beauty and strength, and is sure to add to your home's splendor. The Deluxe package features 22 gauge aluminum skin both inside and out.

Standard

1 3/4" Steel

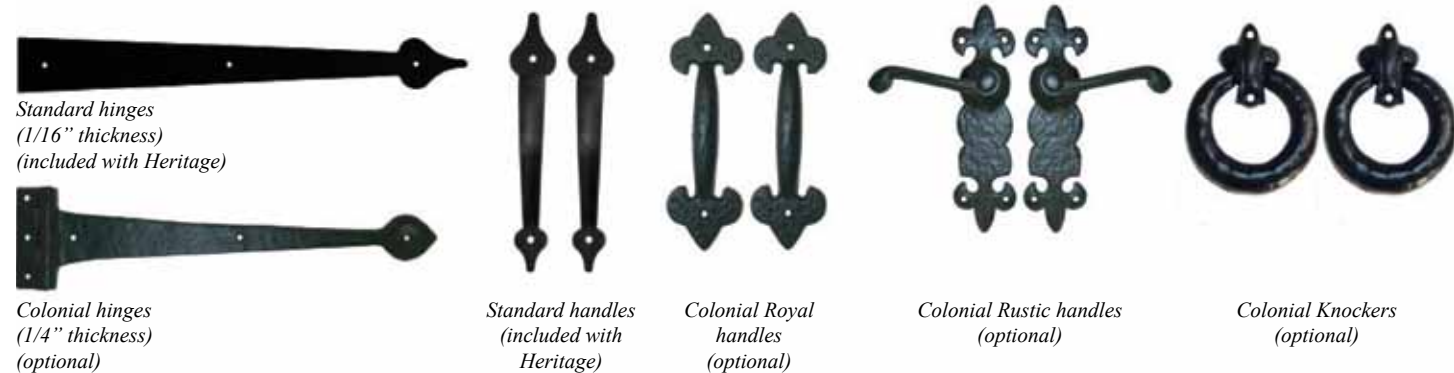

1 3/4" **steel**; polyurethane injected insulation with an R-16 value; choice of 5 exotic colors; 2" nylon rollers; PVC bottom rail; 10,000 cycles torsion spring.

The **Standard** package is the top-of-the-line for our steel model. It is designed to be both energy efficient and low-maintenance. Owners will be delighted by the longevity, durability, and smooth operation that comes naturally to a door built with the highest of standards.

For more information, contact your Laforge door dealer or go to www.laforgedoors.com.

Heritage doors are offered with a variety of decorative hardware.

2. Select a distinctive thermopane window design.

Contemporary, Gold Diamond (Triple Glazed), Gold Storston (Triple Glazed), Frosted, Diamond, Perimeter, Sherwood, Vertical, Wilson, Storston (4 squares), Longueuil, Storston (6 Squares) (Inside or Insert), Curved, 9'x 7', 9'x 7', 11'x 7', 11'x 7', 11'x 7', 14'x 7', 14'x 7', 15'x 7', 16'x 7', 16'x 7', 16'x 7'

Door Width	Number of Raised Panels	Number of Windows
8' to 13'	4	2 or 4
14'	4 or 6	2 or 6
15'	6	6
16'	6 or 8	4 or 6
17' to 18'	8	4

The size and quantity of windows depend on the width of the door. Consult your distributor for more information.

3. Select a distinctive color that matches your home's color scheme.

Aluminum colors

Aluminum doors are pre-painted with a baked-on polyester, semi-gloss finish.

Steel colors

Steel doors are pre-painted with a baked-on polyester, semi-mat finish.

The colors shown may slightly differ from the actual color of the door. Please request an actual color sample.
* Dark finish doors facing south are not covered under warranty

The woodgrain texture of Laforge doors creates a finish that has the appearance and the feel of authentic wood.

The **Heritage** raised panel enables you to see the rich texture and beauty of the door from a greater distance.
